- Programming Languages
 - Java
 - JavaScript
 - Python (Basics)

CERTIFICATIONS

- Machine Learning Foundation – Infosys Springboard
- UiPath Automation Developer Associate Training

PROFILE

Full Stack Developer skilled in React.js, Node.js, and MongoDB (MERN stack), with experience in building scalable web applications and REST APIs. Familiar with PHP, MySQL, and Python. Strong in UI development, debugging, and performance optimization.

WORK EXPERIENCE

- Front-End Web Developer Intern
Emglitz Technologies - July 2024
 - Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js
 - Collaborated with designers to implement intuitive UI/UX designs
 - Optimized frontend performance to improve page load speed
 - Debugged and resolved UI issues to enhance user experience
- Front-End Developer Intern
Codec Technologies - Oct 2025 – Nov 2025
 - Built interactive and mobile-responsive web pages using modern frontend technologies
 - Worked in a team environment to deliver high-quality web applications
 - Assisted in integrating frontend with backend APIs
 - Worked on backend integration and API handling using Node.js and Express.
 - Handled server-side logic using Node.js

EDUCATION

- B.E. in Computer Science
Hindusthan Institute of Technology
CGPA - 8.2% with Honours

PROJECTS

- StartupVerse – Startup Idea Validator Platform
Tech Stack: Next.js, Firebase, Firestore
 - Developed a full-stack web platform for startup idea submission and validation.
 - Implemented user authentication, idea posting, voting, and commenting features.
 - Designed real-time data storage using Firebase Firestore.
 - Deployed the application using Vercel and Firebase services.
- Direct Market Access for Farmers
Tech Stack: Web Technologies
 - Built a full-stack Farmers Market platform connecting farmers and buyers for direct product sales.
 - Developed secure authentication, product listing, order management, and farmer-buyer interaction features.
 - Implemented the frontend with React.js and backend APIs with Node.js/Express, using MongoDB for data storage.
 - Optimized application performance and ensured scalability.
